TWO CENTS

SAY BOOZE WAS CAUSE OF FATAL ACCIDENT AT UNIONTOWN

Two Machines in Wild Ride Down Mountain Side Menace to Others

STRONG ODOR OF LIQUOR FOUND

The automobile accident that took place on the National Pike east of Uniontown on Sunday, and which resulted in the death of two men, was the result of a wild ride down the mountainside, in which a number of collisions were averted only by a hair's breadth. The accident happened about 4:45 o'clock at Gray's hill, Hopwood, when a Buick car locked hubs with another machine and turned turtle three times. Two of the occupants of the car were killed, and the other three injured, although the driver, Euphrasio Briatico, was the least hurt of any of them.

According to eyewitnesses, the car came down the mountain "wide open" at a terrific rate of speed. Several machines were forced to hug the mountain side to prevent collision, while others averted to have been searched as the car came down the post. Officers were told that bottles from the machine were thrown into others as the car passed. An examination of the wrecked machine, officers said revealed broken bottles, a broken jar and a strong odor of liquor.

Returning from a picnic party, two machines, the other driven by Mike Mitchell, also of Belle Vernon, were apparently racing each other down the mountain. At Gray's hill Briatico attempted to pass the machine driven by Mitchell. The machines locked hubs and Briatico's car was sent hurtling to one side, turning completely over three times before its force was spent. All of the occupants were pinned underneath the machine.

Mitchell stopped his machine as soon as possible and went back to assist the victims of the accident. The four injured seriously were taken to the Uniontown hospital in Mitchell's machine, where two of them, Nuzzo and Lettori died a short time later.

In the meantime the constable of Hopwood, Joe Coburn, arrived seeking the driver. He came upon Briatico in a dazed condition who seemed to be under the impression that it was the other car that had been wrecked. Briatico was placed under arrest and placed in the Uniontown jail, later being released on \$3,000 bail. He is charged with driving an automobile while in an intoxicated condition.

I will collect that rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-tf

Lawn Fete under Auspices of the Dames of Malta on the lawn of E. C. Baird, Belle Vernon, Thursday July 29. Everybody welcome. 45-t2

FEAR FOR OPERATION OF MANY INDUSTRIES

Employees of the Donora mills and many of the railroad men are beginning to predict serious effect upon the mills at Donora from the results of the embargo on all shipments in cars and the preference being given the mines for these cars. Under this rule all coal cars as fast as unloaded must be sent to the mines. Some of the more pessimistic fear that the car situation may result in curtailment of operation unless the mine preference is speedily ended.

FIVE PLEAD GUILTY IN WHISKEY CASE

Pleading guilty to charges resulting from eight barrels of whiskey being stolen from the Vandergrift distillery warehouse in East Bethlehem township, five of the nine defendants were sentenced by Judge Charles P. Orr, in the United States Court at Pittsburgh on Monday, to pay fines of \$100 each. They admitted transporting the liquor.

Men implicated in the case and admitting the charges preferred against them were Thomas Locke, superintendent of Vesta mine No. 5 mine, James Crockett, Earl Edwards, and Harry Jenkins, mine foreman, and later Profitt, a Vestaburg confederator. Hearings in the whiskey theft case were set originally for last week, but were postponed until Wednesday, July 28. The defendants named evidently pleaded guilty rather than fight the charges against them.

NEW MEN ARE BLAMED FOR RAILROAD TROUBLES

Railroad men on the Monongahela Division of the Pennsylvania are declaring that the recent accidents on the P. & L. E. railroad have been largely due to the employment of engineers and others who have not had sufficient experience on the job. Several firemen from this side of the river are said to have been offered jobs on the other side and some are reported to have accepted. In the case of the engine explosion at Brownsville one night last week one theory is advanced that the engineer was only recently taken to the road from the Pennsylvania. In the meantime an investigation is being made.

ANOTHER BIG COAL DEAL IN GREENE CO.

In a coal deal completed last Friday in Greene county Mr. and Mrs. Omie F. Cree of Cumberland township, sold a tract of approximately 54 acres to the Cumberland Coal company for \$47,000 or \$500 an acre. The Cumberland Coal company is an extensive owner of coal lands in Greene county.

Freight Embargo Affecting All Shipments at Present

By an order issued and made effective on the 20th of July, a freight embargo now exists in the Central Region, comprising all that territory between Columbus, Ohio, on the west, and Altoona, Pa., on the east. By the terms of the embargo no freight in less than shipments of 10,000 pounds can be consigned to any point within that district until the order is revoked. This means that shipments less than car load lots cannot be made to and from Charleroi until further notice. The reason for the embargo is the shortage of labor and the congestion at various terminals. It is pointed out that Pittsburgh is practically four weeks behind in taking care of freight with between three and four hundred cars to take care of. Other terminals are in practically the same shape. Under the embargo rules the Charleroi freight office can take shipments of 10,000 pounds for a radius of 150 miles, 15,000 pounds for a radius of 250 miles, and 20,000 pounds or over for over 250 miles.

BONDS OFFERED IN DETROIT IDENTIFIED COURT SUSTAINS VERDICT OF JURY

Every one of the \$37,000 worth of bonds offered for sale in Detroit by David and Benjamin Davis was positively identified as having been stolen from the First National bank of Finleyville on May 24. County Detective B. M. Laird announced on Sunday after his return from the Michigan City.

The two men, one being located in Detroit and the other in Toledo, were released on \$10,000 bail for a hearing this afternoon. Detective Laird announced that they still clung to the story that the bonds were given them by a Toledo saloonkeeper, who offered them a generous fee if they disposed of them.

Detective Laird said there had been no new developments and that officials had been unable to secure any evidence of value, yet from the two men.

Mrs. Priscilla Greenwood, wife of the late Ralph Greenwood, died at her residence, 308 Washington Ave., on Monday evening. Mrs. Greenwood had been a resident of Charleroi for twenty-two years, having moved here from Belle Vernon. She is survived by the following daughters: Mrs. H. R. Sultz, Etma, Pa., Mrs. A. N. Lawson, Pittsburgh, Mrs. B. L. Tawatha, Cleveland, Mrs. S. R. Collins, Detroit, Elizabeth and Ella at home. Funeral services at the residence Wednesday evening at 8 o'clock. Interment at Mount Royal Cemetery, Pittsburgh.

Mrs. Caroline Riggs Hazelbaker, Caroline Riggs Hazelbaker, aged 92 years, died early Monday morning at her home near Roscoe. The deceased was well known in this vicinity, having lived in the valley for many years. She is survived by the following children: Mrs. Ida B. Harris, Mrs. Felicia Harsha, Elga Hazelbaker, Mrs. Melissa Pringle, Mrs. Emma Worell, and Ella Hazelbaker, also one sister, Mrs. Lucinda Noble. Funeral services will be held at the Mt. Tabor M. E. church, Wednesday at 1:00 o'clock, p. m., by Dr. R. B. Ward, interment in Howe cemetery.

PRIORITY ORDER WILL CAUSE LOSS TO LAKE COAL SHIPPERS

THIRD VICTIM OF SUNDAY AUTO ACCIDENT

Carmine Mitchell, who was an occupant of the Buick car driven by Euphrasio Briatico, of Belle Vernon, was the third victim of the Sunday auto accident which took place on the National Pike east of Uniontown on Sunday morning about 10 o'clock. Mitchell's skull was fractured. The daughter, who was also an occupant of the ill-fated car, and who is in the Uniontown hospital, is reported to be in a serious condition. Mitchell is the third victim of the wild ride, and the three men will be buried tomorrow afternoon in the Belle Vernon cemetery.

May Have to Sell Product for \$2 Less per Ton at Lake Ports

SHIPPING ORDER IS IMPERATIVE

Order No. 10 of the Interstate Commerce Commission, specifying that thirty per cent of the coal produced in the Connellsville district and along the Monongahela Railway, must be consigned to the lakes is going to cause some trouble between the operator and the purchaser.

It develops that H. M. Griggs, appointed manager of the Ore and Coal Exchange at Cleveland, Ohio, has the powers of a virtual fuel dictator, in the enforcement of this order, and in a telegram to Uniontown on Saturday last, told the schedule arranged called for shipment of 300,000 tons of coal from the Connellsville district, of which 175,000 tons must come from the Monongahela railroad operators. The order became effective on Monday and will presumably remain in force until the tonnage has been delivered to lake ports.

The price question, however, is going to be a stumbling block, as the operators in the Connellsville fields are now getting from \$11.50 to \$12.25 per ton, while the maximum price the lake region will pay is \$8.50. Mr. Griggs says the price question is to be one between the operators and the lake forwarders, with whom shippers are advised to take the matter up. Virtually no coal from the Connellsville region seeks the lake market because of price views of consumers there, and the arbitrary order of 300,000 tons to be sent to the lakes has caused quite a stir among the operators. The lake consumers hold to \$6 as price for bituminous coal and \$8.50 is quoted as the maximum. Railroads are directed by the Interstate Commerce Commission to place a daily embargo upon all coal shipped until a certain percentage of the output has been consigned to Mr. Griggs at the Cleveland pool.

However, the order is expected to stimulate a greater production of bituminous coke, as operators who have ovens at the mine mouth will not be under the jurisdiction of the railroads. Then too such owners will prefer to sell coke at \$19 and \$20 to selling coal at \$8.50 per ton, and in this way will get the maximum price out of their product. Those operators who produce coal only, however, will have no alternative but to ship at least 30 per cent of their production to the lake pool, and then fight with the shippers there for a better price than \$8.50 per ton.

Mrs. Herman Moehle, of Loraine, Ohio, who has been visiting her parents, Mr. and Mrs. James Myers, returned to her home Saturday. Miss Rebecca Myers accompanied her and will spend a few weeks visiting at that place.

COUNTY TO PURCHASE NEW TYPE OF LOADER

A few days ago the members of the board of county commissioners, accompanied by the controller and county engineer, witnessed the performance of a patented wagon loader of the crawler or interpillar type, near Wheeling, W. Va. The machine was being used in actual work of loading slag on wagons and the rapidity and certainty of its operations impressed the officials very favorably.

It is their belief that such a machine added to the road equipment of the county would be able to accomplish wonders in the way of hastening road improvement, as it could be used to excellent advantage in many sections of the county where there are vast quantities of burned slag commonly called "red dog," the ordinary loading of which is a tedious and laborious task.

The commissioners have adopted a resolution, duly recorded, recommending the purchase of a loader of this type, for the use of the county. They desire to purchase one at the earliest possible moment and keep it actively at work in various sections during the remaining weeks of good weather.

At their regular meeting today it is expected they will ask Controller Underwood to advertise for bids on such a machine at once in order that the same may be received promptly and a loader purchased with in the next two weeks.

ELECTED PRINCIPAL FOR FALLOWFIELD TOWNSHIP

H. L. Winnett, a graduate of the California Normal in the class of '13 and since then a teacher in the schools of this county, has been elected principal of the Fallowfield township schools and will take up the work at the beginning of the coming school term.

WANT ROBBSTOWN PIKE IMPROVED

Donora business men, through the Donora Community Service, propose to make a move to have the highway leading up Daggs' hollow toward West Newton improved, as well as the river portion of the road leading from the mouth of Daggs' hollow to Webster. This is with a view of diverting the trade from that section of Westmoreland and Allegheny county to Donora. The road leading up Daggs' hollow is the old Robbstown pike, which connected Monongahela with West Newton and points beyond, and was on the southern route leading east and west between Philadelphia and the western state line. For years stage coaches were maintained on this road and the United States mail between the Yough valley and Monongahela was carried that way. If the road should be improved, it is thought to be, it would furnish a fine outlet for the farming community between the two rivers in that section.

ANARCHISTIC LITERATURE FOUND ON FOREIGNER

Charged with distributing literature which was in violation of the sedition act of 1919, John Sergeyenko was arrested at Donora last Friday by Constable Charles E. Titus and held for court when arraigned before Justice of the Peace H. Charles Ford. He was unable to furnish bond. Sergeyenko resided in Donora until the steel strike. Following the labor trouble there he is said to have moved to Slovian in this county. When taken into custody he had a box filled with what is said to have been anaristic literature in his possession.

We have just received 50 more copies of "The Last Days of Pompeii." The last lot sold out in just a few hours. Better get yours at once. Price \$2.75. Berryman's. 45-1

CUTTING THIRD SET OF TEETH

Memphis (Tenn.) Man, at 84, is Also Renewing His Youth and Vigor in Other Ways.

The adage that there is nothing new under the sun has been disproved by N. D. Starr, who has cut a third set of teeth at the age of eighty-four, when usually the only new molars, bicuspids, etc., that can be achieved are those purchased from a dentist. Mr. Starr, who is in the employ of the Memphis Artesian Water company, recently found himself in need of a set of these artificial substitutes for the teeth provided by nature. But when he visited his dentist the price was too high and he decided to go toothless. However, through one of the unaccountable happenings which sometimes upset all rules, Mr. Starr discovered that he was cutting 12 new teeth. They are almost through now, although they are not very useful yet, owing to the fact that his gums are sore in a fashion familiar to all mothers of teething infants or to boys and girls whose second teeth are replacing their baby teeth, and even the older boys and girls who proudly announce: "I'm cutting a wisdom tooth."

A Little More Than Kin.
Last year I asked my best girl to become my wife, and she said "No." But I got even with the girl. I married her mother. Then my father married the girl. Now I don't know what I am. When I married the girl's mother the girl became my daughter, and when father married my daughter, she was my mother. Who in the dickens am I? My mother's mother was my wife, and I being my grandmother's son and my own grandfather's father-in-law. Pittsburgh Chronicle-Telegraph.

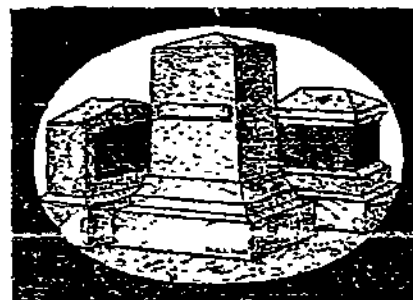

Rivers That Are Salty.
There is a salt river in Australia, and another, the Rio Salado, in the Argentine Republic in South America. The Athabasca river of British North America has two important salt branches, one of which rises in a natural salt spring and the other has its source in the Cariboo mountains, which contain vast deposits of salt rock. Another salt river, having its origin in a similar formation, is one of the tributaries of the Great Slave river.

REESE FORMULA R-11 WORTH ONE THOUSAND DOLLARS A BOTTLE SAYS S. O. LOAMAN, OF STEUBENVILLE

S. O. Loaman of Steubenville Suffered for Five Years with Stomach Trouble—One Bottle of Reese Formula R-11 Relieved Him

"No amount of money could buy what I have gained by taking the Reese Formula R-11. I had very little appetite and the food I ate seemed to turn me so sour that I did not enjoy my meals. I began taking the Reese Formula R-11, after the seventh dose I began to notice a change and, although I have not finished the first bottle, I now enjoy every meal and sleep like a baby at night. I am buying two more bottles and will always have it in the near future. As I have said before I wouldn't take one thousand dollars for what I have left in the first bottle if I couldn't get any more. That's what I think of it and most heartily recommend it to all my friends and neighbors. If you suffer from your stomach, liver or kidneys in any form such as indigestion, nervousness, rheumatism, sleeplessness, backache, urinary or female troubles, get a bottle of Reese Formula R-11. It will prove as valuable to you as it has to Mr. Loaman. If you wish further information, write to our Medical Adviser, Medical Department, The Reese Formula Co., Huntington, W. Va.
